

TITAN Dual Speaker Skull Microphone

Bone Conduction Headset

THE TITAN DUAL SPEAKER SKULL MICROPHONE

The Titan Firecomm HUC2-ST Dual Speaker Skull Microphone is a very user-friendly bone conduction headset developed especially for professionals working in harsh and noisy environments. Titan's high quality speakers and advanced bone conduction microphone ensure clear and uninterrupted communication, even in settings with severe background noise factors. The Titan HUC2-ST Skull Microphone provides a comfortable fit and is easily mounted inside most helmet types by means of velcro fasteners or Titan helmet adapters.

New adapter for MSA F1XF

SKULL MICROPHONE

Part number:

HUC2-ST-C-TP-OC-01

Technical data

Weight:	110g	Speaker impedance:	16 Ohm
